- **Talk to your readers.** If you have an existing audience, ask them what topics they're interested in. You can also use social media to survey your followers.
- **Look at what's selling.** Take a look at the bestseller lists in your genre. This can give you a good idea of what topics are popular with readers.

Once you've identified a few popular niches, you can start to narrow down your focus. Consider your own interests and expertise. What topics do you know a lot about? What topics do you enjoy writing about?
